

### Science-U @Home

Science-U @Home provides fun activities for grown-ups and kids to explore science *together*.

[science-u.org](http://science-u.org)

### Explore Shale

An exploration of natural gas drilling and development in the Marcellus Shale.

[exploreshale.psu.edu](http://exploreshale.psu.edu)

### Mission: Materials Science

Materials science is the study of stuff— what it's made of, how it can be used, and even how it can be changed to create new kinds of stuff.
